

ERASMUS+ TRAINING PROGRAMME

Applied AI Multimodel Bootcamp

Cultivating Cognitive Agency in Digital Environments

VALENCIA, SPAIN | OCTOBER 25–31, 2026

PARTICIPANTS

International students and professionals (Erasmus+ Projects)

METHODOLOGY

Human-in-the-Loop · Multi-agent ecosystems (free-tier optimization)

VENUE

Calle Coruña, Aula 8 + immersive venues across the city

SUNDAY

October 25

Arrival & Welcome

TIME	SESSION	CONTENT
All Day	Arrival	Arrival of participants, check-in, and first contact with the city

MONDAY

October 26

Foundations of Cognitive Agency & Historical Text-Framing

TIME	SESSION	CONTENT
09:00–13:00	Morning Session (Classroom)	- Introduction to the "Cognitive Agency" framework - Students explore working with groups of AI models (ChatGPT, Gemini, Copilot, Claude, DeepSeek) in a professional context, learning to coordinate each model's strengths to make the most of their free-tier plans
16:30–18:30	Cultural Challenge	"The Great Historical Fact-Check" in El Barrio del Carmen — auditing AI hallucinations on mobile devices

TUESDAY

October 27

Structural Logic, Data Analysis & Economic Optimization

TIME	SESSION	CONTENT
09:00–13:00	Morning Session (Classroom)	- Advanced prompting for budgeting and project data structuring - Coordinating multiple models — testing DeepSeek and Copilot against ChatGPT to compare reasoning and free-tier efficiency

TIME	SESSION	CONTENT
16:30–18:30	Cultural Challenge	"The Efficiency & Logistics Duel" at the Central Market & La Lonja — designing resource-optimized business models under constraints

WEDNESDAY

October 28

Multimodal Integration & Creative Marketing Engines

TIME	SESSION	CONTENT
09:00–13:00	Morning Session (Classroom)	- Multimodal AI frameworks (processing images, audio, and text) - Testing Google Gemini's native visual engine as part of a coordinated multi-model workflow
16:30–18:30	Cultural Challenge	"The Multimodal Futuristic Pitch" at the City of Arts and Sciences — generating marketing campaigns from environmental media assets

THURSDAY

October 29

Heavy-Duty Text Processing & Long-Context Synthesis

TIME	SESSION	CONTENT
09:00–13:00	Morning Session (Classroom)	Joint Workshop: "Green Erasmus" & Cognitive Agency — managing massive datasets and EU regulation files using Claude's long-context windows within a coordinated model ecosystem
16:30–18:30	Cultural Challenge	"The Long-Context Policy Hackathon" at Albufera Natural Park (Boat Trip) — compressing environmental directives into sustainable project drafts

FRIDAY

October 30

Results, Prototyping & Certification

TIME	SESSION	CONTENT
09:00–13:00	Morning Session (Classroom)	- AI-assisted rapid prototyping (code/wireframes), coordinating a group of models and defending the approach before an adversarial AI evaluation panel - Closing Ceremony and certificate delivery
16:30–18:30	Cultural Challenge	"The Innovation Final Pitch" at La Marina de Valencia & Malvarrosa Beach — validating human criteria over AI automation
20:00–23:00	Farewell Dinner	Closing dinner and final networking session

SATURDAY

October 31

Departure

TIME	SESSION	CONTENT
Morning	Departure	Check-out and transfer to airport/station

Note: comfortable shoes are recommended, and please bring a fully-charged mobile device for the Cultural Challenge activities.
